CONCORDIA SERIES

A collaborative, open-environment work area that promotes interaction while allowing your own private space. A modern style laminate that brings people together working on a common goal. Features shared work surfaces, whether sharing the space next to you or across from you, with a clean design that works in the traditional or future work environment. The Concordia system fosters teamwork and quiet time to focus on individual tasks. Provides plenty of work surface, storage above the work surface and private storage where needed under the work surface. Flexibility, integration with modern technology and clean design is the focus of the Concordia series. Covered by Lorell Limited 5-Year Warranty. Available January 2013.

Chair Feature Information for Chairs on pages 30-47

The diagrams below identify those features that best suit your needs. The number key matches the examples found throughout the seating section.

Height & Depth Controls

1. Pneumatic Seat-Height Adjustment
Regulates height of chair relative to floor.

2. Back-Height Adjustment
Positions lumbar support within a fixed range.

3. Seat-Depth Adjustment
Positions chair back relative to seat.

4. Seat Glide Mechanism
Seat cushion travels forward and back, then locks into position.

5. 360 Degree Swivel
Standard on every executive and task chair.

6. Tilt
Pivot point located directly above center of chair base.

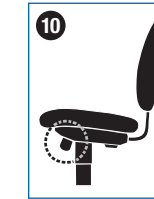

7. Mid-Range Knee Tilt
Pivot point located slightly ahead of center of chair base. Allows user to recline at a slightly more relaxed angle than conventional tilt.

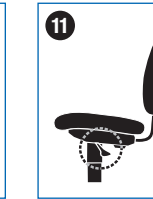

8. Knee Tilt
Pivot point located near front edge of chair. Allows user to keep feet flat on floor while chair reclines.

9. Dual-Action Synchro Tilt
Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor.

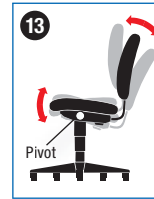

10. Tilt Tension
Controls rate and ease of recline.

11. Tilt Lock
Locks out tilt function when chair is in upright position.

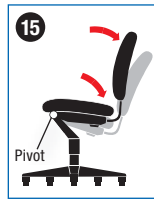

12. Posture Mechanism/Lock
Back angle adjusts independently of seat, and can be locked in an infinite number of positions.

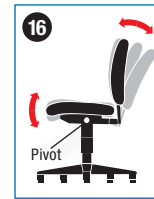

13. Multi-Task Control
Adjusts seat and back angles with a single lever (infinite locking within a fixed range).

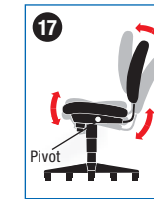

14. Asynchronous Control
Three levers modify:
• Angle of back relative to seat
• Tilt (free float or infinite locking within a fixed range)
• Forward tilt

15. Synchronized Knee Tilt
Back reclines at a 2-to-1 ratio to seat angle. Pivot point located near front edge of chair.

16. Dual-Clutch Posture Control
Adjusts seat and back angles independently with two levers (infinite locking within a fixed range).

17. Variable Synchro Tilt
Back reclines at a 2-to-1 ratio to the seat. Chair can tilt freely, or lock in position. "Forward angle" control provides an extra 5 degrees in the range of motion.

18. Inverse Synchro Tilt
With automatic tension control opens torso for better circulation. "Zero lift" seat front helps keep feet on the floor when reclining. Tilt limiter controls range of motion.

19. Independent Seat and Back
Seat and back flex independently for automatic comfort

20. Integral Lumbar Support
Easily adjusts to enhance comfort

Arm Options

Fixed Position T-Arms

Loop Arms

Adjustable-Height Arms

Provide improved upper-torso support. Can be adjusted periodically to relieve strain and provide variety.

Adjustable-Width Arms

Quick-adjust design places arms close to body for keyboarding, or out to sides for ease of entry.

Each arm rotates 30 degrees and adjusts 2 1/2" in height. Position inboard for keyboarding, outboard for entry and exit.

MESH CHAIRS

Protect floor surfaces from scratches and rust stains. Dramatically reduces noise and are extremely durable. Easy to apply, peel and stick application. Floor savers conform to the rail for perfect fit and wings attach to themselves for long lasting hold. Recommended for most size rails and can be applied directly to rail or over existing glide. 16 per pack.

		LIST PRICE
LLR 49319	Fits Most Stack Chairs	\$33.00 pk

How To... SELECT THE RIGHT LORELL® CHAIRMAT

Here's what you need to consider:

Determine Your Flooring Type

Once you realize you need a Lorell chairmat, choosing the right one is extremely important. The proper chairmat for your environment will provide years of protection.

Low Pile

1/4"-3/8" thick, including padding such as commercial, rubber backed or Berber

Medium Pile

1/2"-3/4" thick, including padding such as plush carpets

High Pile

Over 3/4" thick, including padding such as deep pile and shag

STEP 1

Floor Type

CARPETED FLOORS

Require a chairmat with bottom studs

HARD FLOORS

Require a non-studded chairmat

	THICKNESS	THICKNESS	THICKNESS	THICKNESS	THICKNESS
HIGH PILE	✓	✓			
MEDIUM PILE			✓	✓	
LOW PILE				✓	✓
HARD FLOOR			✓		✓

← THICKNESS

For best performance, select a thicker mat for heavier weight or high usage

- Extremely durable and resilient
- Designed for any carpet thickness
- Exceptional clarity

- Designed for any carpet thickness

STEP 2 Workspace

SIZE & SHAPE

Measure your allowable rolling distance and pick the shape that best fits your area.

RECTANGLE	LIPPED	WORKSTATION	CONTOUR
Versatile for use with most desks	For use under desks with smaller openings	For use with L-configuration and corner workstations	For use in modern offices

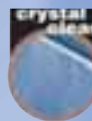

Studded/ Gripper Back

Notched studs grip carpet, but won't pierce or damage carpet backing.

Smooth Edge

Smooth edge for easy-on/easy-off chair movement.

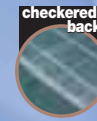

Crystal Clear

Transparent mats let the beauty of your flooring shine through.

Anti-Static

Designed for use with sensitive electronic equipment. Chemically formulated to dissipate static electricity before it has a chance to damage sensitive equipment.

Checked Back

Premium mat features innovative checkered grid on bottom for optimum carpet grip.

A Quick Tip For Measuring Carpet Thickness:

- Straighten the end of a paper clip.
- Sink straightened end of paper clip into the carpet so that it penetrates the carpet backing and reaches to the floor below. (You may have to wiggle the paper clip to force it through the carpet backing).
- Grab the paper clip with your thumb and index finger at the point where it is flush with the top of the carpet. Be sure that you are not matting down the carpet with your hand. Then measure the distance between your fingers and the end of the paper clip.

Why You Need A LORELL® Chairmat...

Extends Carpet Life

Protects carpeting from pulls, tears, wear and divots caused by casters.

Protects Fine Hard Floors

Safeguard wood, tile and ceramic floors from marks caused by casters.

Ergonomic

Provides smooth mobility, reducing the amount of stress on your back.

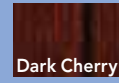

A. Bamboo Roll-Up Chairmats

- Versatile mats are perfect for both carpet and hard floors
- Felt backing with non-skid gripper dots keeps mat in place
- Rounded edges for easy access on and off the mat
- Rolls up so it's easy to ship and carry
- Finished with premium, eco-preferable, UV-cured coating for ultimate protection
- 100% Moso bamboo is sustainably harvested and supremely durable
- Soft floor casters recommended
- Covered by Lorell Limited 5-Year Warranty

LATERAL FILING

Lateral Filing Units

Hanging file rails included for side-to-side filing in letter, legal, or A4 size. Interlock system allows only one drawer to open at a time. Integrated full steel pull. Counter weight to prevent tipping. Ball-bearing slide suspension. Core removable locks. Adjustable leveling guides. Meets/exceeds applicable ANSI/BIFMA standards. Contains 30% recycled content. Covered by Lorell Limited Lifetime Warranty.

Without Laminate Tops

With (Optional) Laminate Tops

Filing Technique – Advance planning is the key to creating a successful filing and storage system. To determine which system will best meet your filing needs, consider the following three filing options.

How Do You File?	How Can We Help?	What You Need	Where It's Used
Standing Files	Standing files are less expensive, allowing you to use existing folder inventory.	Compressor or following block	<ul style="list-style-type: none"> Vertical files (front-to-back only) Lateral files (side-to-side only in drawers or roll-out shelves) Shelf files (side-to-side only)
Hanging Files	Because hanging files can be viewed from the top, they allow easier organization and identification of file folders. Remaining files hold their place when folders are removed.	Hangrails or high-drawer sides	<ul style="list-style-type: none"> Vertical files (front-to-back only) Lateral files (front-to-back or side-to-side in drawers or roll-out shelves)
End-Tab Files	End-tab files can be viewed from the side, providing the easiest and fastest file identification. Is the preferred solution for healthcare, insurance and other critical files with frequent retrieval.	Front-access shelves to accommodate end-tab files	<ul style="list-style-type: none"> Lateral files (side-to-side only in roll-out shelves or fixed shelves) Shelf files (side-to-side only – ideal for high density)

Ways To Use Lateral Files – Lateral filing is the ideal solution for active workstations, where higher capacity is necessary and retrieval is frequent. The two-drawer steel lateral files are also space-efficient, fitting under standard-height workspaces when used with panel systems.

<p>Front-to-back filing: 30" wide files: 30½" of filing with letter/letter rows 36" wide files: 30½" of filing with letter/letter, legal/legal or letter/legal rows (30" and 36" filing requires LLR 60565 hangrails)</p>	<p>42" wide files: 45¼" of filing with three rows letter or 30½" of two rows legal or two standard printout rows (requires LLR 60565 hangrails)</p>	<p>Side-to-side filing: 30" wide files: 27" of filing with letter or legal 36" wide files: 33" of filing with letter or legal 42" wide files: 39" of filing with letter or legal</p>	<p>Combination filing: (front-to-back with side-to-side in one drawer) 30" wide files: not recommended 36" wide files: 15¼" of front-to-back letter filing and 20¼" of side-to-side legal filing 42" wide files: 15¼" of front-to-back letter filing and 26¼" of side-to-side legal filing</p>

A. Medium Low Profile Mount

Medium low-profile (less than 1") mount holds most TV's from 22" to 46" (up to 66 lbs.). Sturdy, easy-to-install and features double-stud mounting for greater strength and security, yet mounts your TV less than 1" from the wall for a slim sleek look. May also be used with brick/concrete walls and other wall types. TV interface arms hook onto wall bracket for easy installation, mounting hardware included. Attractive Black finish, universal design fits all VESA and non-VESA mounting patterns up to 400x400 mm. Covered by Lorell Limited 5-Year Warranty.

Product No.
LLR 39026

LIST PRICE
\$59.00 ea

B. Large Double Articulated Mount

Fits most 37"-61" screens (up to 150 lbs.). Low profile design folds flat to wall to save space, yet offers a maximum 28.3" arm extension to allow mounting anywhere, even in or near corners. Large Full Motion Mount offers a tilt angle -15° to +5° so you can create the perfect non-glare viewing angle. Swivels 180° at wall bracket, center pivot and screen. Will fit all VESA mounting patterns from 100x100 mm to 600x400 mm and offers integrated cable management. Completely assembled for fast and easy installation. Covered by Lorell Limited 5-Year Warranty.

Product No.
LLR 39031

LIST PRICE
\$249.00 ea

C. Medium Double Articulated Mount

Value-priced mount with real extension and full motion for 26"-46" flat panel TV's up to 80 lbs. Maximum 20.1" arm extension allows mounting anywhere, even in or near corners, yet folds flat to wall to save space. Tilt angle -15° to +5° allows you to set your ideal viewing angle. Fits all VESA and non-VESA mounting patterns from 100 mm x 100 mm to 400 mm x 400 mm. Screen level adjustment after installation +/-3.5°. Cable management included. Fully assembled with mounting hardware included for fast and easy installation. Covered by Lorell Limited 5-Year Warranty.
