All Eurotech products have been certified by GREENGUARD as meeting the Indoor Air Quality pollutant guidelines and standards. The GREENGUARD Environmental Institute is an industry-independent, non-profit organization that oversees the GREENGUARD Certification Program (SM), which certifies indoor products based on strict chemical emissions criteria. Products are tested and verified to meet the stringent GREENGUARD Indoor Air Quality Certified. GREENGUARD Certification provides third-party assurance that products have been tested for potentially harmful chemical emissions, and found to meet allowable levels established by recognized public health authorities.
